Brokerage event

Find European partners in

Sustainable Construction

Agência de Inovação and the Portuguese Platform for Sustainable Construction are organizing a Brokerage Event on Sustainable Construction on September 20 in Aveiro, Portugal.

The Brokerage event is part of **CINCOS'12** - *Congress of Innovation on Sustainable Construction*, occurring in Aveiro University (20-22/September/2012), and will feature Built Environment Sustainability as a driving force for Innovation and Competitiveness. The Congress will include, besides thematic communications, workshops on Sustainability and Innovation, Sustainable Cities, Sustainability and Markets and also on the Role of Clusters.

The brokerage will give companies, municipalities, R&D centres and others an opportunity to have bilateral meetings with potential business and technological partners to share knowledge and expertise. Bilateral meetings will be held on September 20 from 15h00-19h00.

Thematic Focus:

- Materials and products for a Sustainable Construction;
- Sustainable construction and rehabilitation technologies and systems;
- Energy and environmental impacts and performance;
- Use of natural resources;
- Sustainable construction economy and management.
